Re: Docket No. 2004-357-WS

Dear Friend,

I have received notification of request for rate changes on Sewer service , I believe these charges to be extremely high and not justified. The present flat charge of \$30.33 monthly for a person as myself, with minimum water usage \$12. To \$14. a month ( I am single and live alone) is high to start with. The new request is a 33% raise and must be about the highest in the nation. (ridiculous)  
Please take a close look at this situation and adjust fairly.

Sincerely,

*Myle J. Ward*
